

Original Limu™ goes custom with packaging

The Limu Company is privately owned with first year sales of Original Limu™ exceeding 10 million dollars in revenue. To help continue in its success they hired Flowdesign of Detroit Michigan overhaul their brand image through packaging.

The new face of Original Limu™ is sleek, contemporary and clearly distinctive; an artistic creation with a unique sculptured design and clear label that captures the essence of the product's Tongan heritage.

“We believe Original Limu™ is the best tasting nutritional beverage ever. Now it has its own original bottle so it truly looks as good as it tastes,” stated Founder, President and CEO, Gary J. Raser. “It represents the power of significant financial opportunity and optimal health available through Original Limu™.”
